

# THE GLASS COLLECTION

This collection features large format laminated glass decorative panels which can be backlit.

The applications include walls, wet environments, furniture, interior doors, kitchens, sinks, and tubs.

The images in these panels are highly aesthetic and full of depth thanks to the Superscan HD system used.

It's possible to customize the design and measurements of our panels.

They are made with safety glass which has a high impact resistance.

The installation and handling method is similar to large-format porcelain slabs and they are workable on site.

If you have any questions please visit our showroom or give us a call.
